

Clean Energy Committee

03/01/2023

In attendance. Silver Gudbrandsen, Jon Mesh, Kelly Jasinski

A meeting of the CEC committee was held at the Cupola Coffee Shop for the purpose of conducting research on the internet. The committee searched for Local, State and Federal Grants that might be of interest to the committee. These topics included both energy related grants, and environmentally friendly grants as they would apply to the general public and community as a whole.

No decisions were made. It was an initial 'forage' to see what might be out there, and in what time frame they would need to be submitted. It was determined that more research will be needed.

Respectfully submitted by Board liaison, Kelly Jasinski 3/23/23
