Emilia Medick, Chairperson
Chuck Curtiss, Town Board Liaison
Sara Curtiss
Scott Draina

Discussion on PDR and the process for landowners that are interested.

Discussion on the Farm Trail Map. Sara is working with Saratoga CO-OP for a county wide map. Need to discuss with the Comptroller about how to possibly fund this. It has been noted that unless the activity has an involvement piece that includes the aging or kids, that it is difficult to use public funds, as directed by the comptroller. Will need to have further discussion on other possible avenues.

The proposed new sewer district was discussed for the NY Forward application. The committee has questions about the distance and the reach of the proposed expansion. Also has questions on the interest that adding sewers has generated. Any marketing and demographic research would be of interest to the FPPC, in addition to the results of the residence survey. The Community meeting is set for April.
